

Heaven In Business – South Jersey

January 19, 2019

We were so excited to kick off another amazing year with our wonder Heaven in Business SJ team by sharing testimonies of how God was moving in the workplace! We heard how God is growing businesses, creating a culture of honor, stirring up boldness, and lavishing His favor on our team!

We discussed what being part of the body of Christ looks like:

- Every person/part of the body is necessary to complete God's purpose
- Every person/part is uniquely designed and purposed
- Every two people/parts with the same strengths are totally unique and necessary
- Your strengths are meant to be shared and to build up the body.

We engaged in a fun practical exercise where we wrote down five of our own strengths and also were given another member to write down five of their strengths. We were encouraged by what others see in us, as well as reminded what we are able to give to those around us. Our monthly challenge came from this exercise, to use one of our strengths in our workplace or community and to journal the situation, results and/or miracles. We look forward to hearing the amazing testimonies next month!

Love & God's Blessings,

Denise Santore
