

Heaven In Business – South Jersey

November, 2018

This month our meeting focused on the truth that God is always in a good mood, and God is in a good mood on purpose! We shared the good things He is doing in our workplaces!

Our teaching focused on how the perspective we choose to use usually determines our mood. We challenged ourselves to see things from the “we lens” instead of the me lens, or the he/she lens. That we would not attempt to manage the thoughts of others with the he/she lens, or fall into the victim mindset of the me lens. To learn how to validate those around us without enabling behavior that makes others feel unsafe.

We can't wait to hear the testimonies next month!

Love & God's Blessings,

Denise Santore
